

Information on Open Source Software

When filling in the below list, please follow these instructions:

- Use a separate sheet for each firmware version.
- Mark the firmware version and the product in which the firmware is used on the first side.
- It is of utmost importance that the list includes all Open Source software contained in the firmware.
- Specify the precise name of the software including its version number (Example: *Siproxd – SIP proxy/masquerading daemon Version: 0.5.10*).
- Specify the license under which the software is released including (if applicable) its version (Example: *General Public License Version 2* or *BSD-3 clause license*).
- If available, add any information on copyright notice or eventual remarks.

Firmware and version: _____ AT904X-04.13 _____

Product: _____ 904DSL _____

Software and version number	License and License Version	Copyright notice / remarks
