Ouick Start Guide

The mobile phone is in compliance with the requirement of EN 60950-1: 2006 amendment A12: 2011. There will appear a warning box when the volume level is over 3. If the user selects left soft key in the warning box, the volume can be increased and the phone will repeat the acknowledgement more than once every 20h of cumulative listening time.

This product meets applicable national SAR limits of 2.0 W/kg. The specific maximum SAR values can be found on page 24 of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 10 mm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

Safety and use

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein.

· TRAFFIC SAFFTY:

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit headest) drivers are requested to refrain from using their mobile when the vehicle is not parket

When driving, do not use your phone and headphone to listen to music or to the radio. Using a headphone can be dangerous and forbidden in some areas. When switched on, your phone emits electromagnetic waves that

can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem: - do not place your phone on top of the dashboard or within an

- airbag deployment area, - check with your car dealer or the car manufacturer to make
- sure that the dashboard is adequately shielded from mobile phone RF energy

· CONDITIONS OF USE:

your original invoice.

original invoice.

any other costs

You are advised to switch off the telephone from time to time to ontimise its performance Switch the phone off before boarding an aircraft.

Switch the phone off when you are in health care facilities, except in designated areas. As with many other types of equipment now in regular use, mobile telephones can interfere with other electrical or electronic devices, or equipment using radio frequency.

Switch the phone off when you are near gas or flammable liquids. Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive

When the phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any.

Warranty.....

Your phone is warranted against any defect or malfunctioning which

may occur in conditions of normal use during the warranty period

of twelve (12) months (1) from the date of purchase as shown on

Batteries (2) and accessories sold with your phone are also

warranted against any defect which may occur during the first

six (6) months (1) from the date of purchase as shown on your

In case of any defect of your phone which prevents you from

normal use thereof, you must immediately inform your vendor and

If the defect is confirmed, your phone or part thereof will be

either replaced or repaired, as appropriate. Repaired phone and

accessories are entitled to a one (1) month warranty for the

same defect. Repair or replacement may be carried out using

This warranty covers the cost of parts and labor but excludes

reconditioned components offering equivalent functionality.

The warranty period may vary depending on your country. (2) The life of a rechargeable mobile phone battery in terms of conversation time standby time, and total service life, will depend on the conditions of use and network configuration. Batteries being

considered expendable supplies, the specifications state that you should obtain optimal performance for your phone during the first six

present your phone with your proof of purchase.

To avoid hearing impairment, pick up the call before holding your phone to your ear. Also move the handset away from your ear while using the "hands-free" mode because the amplified volume might cause

Do not let children use the phone and/or play with the telephone and accessories without supervision. Do not attempt to disassemble your phone. If you disassemble your

phone the warranty will not apply. Also disassembling the phone may damage the battery, and may cause leakage of substances that could create an allergic reaction Always handle your phone with care and keep it in a clean and dust-free

Do not allow your phone to be exposed to adverse weather or environmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +45°C.

At over 45°C the legibility of the phone's display may be impaired, though this is temporary and not serious Emergency call numbers may not be reachable on all cellular networks

ou should never rely only on your phone for emergency calls. Do not open, dismantle or attempt to repair your mobile phone

Do not drop, throw or bend your mobile phone. Do not use the phone if the glass made screen, is damaged, cracked

or broken to avoid any injury.

Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Ltd. and its affiliates and are compatible with your phone model, TCL Communication Ltd. and its affiliates disclaim any liability for damage caused by the use of other chargers or batteries.

Remember to make back-up copies or keep a written record of all important information stored in your phone. Some people may suffer epileptic seizures or blackouts when exposed

to flashing lights, or when playing video games. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before playing video games on your phone or enabling a flashing-lights feature on your phone.

Parents should monitor their children's use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the owing symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. To limit the likelihood of such symptoms, please take the following safety procautions: - Do not play or use a flashing-lights feature if you are tired or need

- Take a minimum of a 15-minute break hourly
- Play in a room in which all lights are on. Play at the farthest distance possible from the screen.
- If your hands, wrists, or arms become tired or sore while playing
- stop and rest for several hours before playing again. If you continue to have sore hands, wrists, or arms during or after
- playing, stop the game and see a doctor. When you play games on your phone, you may experience occasional

discomfort in your hands arms shoulders neck or other parts of your body. Follow the instructions to avoid problems such as tendinitis. carpal tunnel syndrome, or other musculoskeletal disorders.

PROTECT YOUR HEARING To prevent possible hearing damage, do not listen at high

volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile telephone. Pursuant to such laws and regulations. it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and duplicate or distribute them, as this may be considered to be an invasion of privacy. It is the user's sole responsibility to ensure that prior authorisation be obtained, if necessary, in order to record private or confidential conversations or take a photograph of another person; the manufacturer, the seller or vendor of your mobile phone (including the operator) disclaim any liability which may result from the improper use of the mobile phone.

CHARGERS Mains powered chargers will operate within the temperature range Before removing the battery from your phone, please make sure that the phone is switched off. of: 0°C to 40°C.

Observe the following precautions for battery use: - Do not attempt to open the battery (due to the risk of toxic

fumesand burns). Do not puncture, disassemble or cause a short-circuit in a battery

- Do not burn or dispose of a used battery in household rubbish or store it at temperatures above 60°C.

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended by TCL Communication Ltd. and/or its affiliates. This symbol on your telephone, the battery and the

accessories means that these products must be taken to collection points at the end of their life:

- Municipal waste disposal centres with specific bins for these items of equipment Collection hins at points of sale

They will then be recycled, preventing substances being disposed of

in the environment, so that their components can be reused. In European Union countries: These collection points are accessible free of charge.

All products with this sign must be brought to these collection points. In non European Union jurisdictions: tems of equipment with this symbol are not to be thrown into

ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled. CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE, DISPOSE OF USED BATTERIES

ACCORDING TO THE INSTRUCTIONS.

Maximum SAR for this model and conditions under which it was recorded

WCDMA 900 0.806 W/kg Head SAR Body-worn SAR GSM 900 1.11 W/kg

During use the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value Body-worn SAR testing has been carried out at a separation distance

of 15 mm. To meet RF exposure guidelines during body-worn operation, the device should be positioned at least this distance away from the body. If you are not using an approved accessory ensure that whateve

product is used is free of any metal and that it positions the phone the indicated distance away from the body Organizations such as the World Health Organization and the

US Food and Drug Administration have statesd that if people are concerned and want to reduce their exposure they could use a hands-free device to keep the phone away from the head and body during phone calls, or reduce the amount of time spent on For more information you can go to www.alcatelonetouch.com

Additional information about electromagnetic fields and public health are available on the following site: http://www.who.int/peh-emf. Your telephone is equipped with a built-in antenna. For optimal

operation, you should avoid touching it or degrading it. As mobile devices offer a range of functions, they can be used in

positions other than against your ear. In such circumstances the device will be compliant with the guidelines when used with headset or ush data cable. If you are using another accessory ensure that whatever product is used is free of any metal and that it positions the phone at least 15 mm away from the body.
